HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to hysicians and citizens generally of the United tates, because the article has attained a repuation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a halfincrease in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare edicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its

and the diseases resulting therefrom. This is not a temporary popularity, obtained by extraordinary efforts in the way of trumting the qualities of the Bitters, but a solid nation of an invaluable medicine, which is

destination of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of undiseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system. giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find it a stimulant peculiarly adapted to comfor declining years, as it is pleasant to the palate invigorating to the bowels, excellent as a tonic and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuprate the energies of the system, and enable the mether to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhosa, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION .- We caution the public against feits, but ask for Hostetter's Celebrater STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters blown on the side of the bottle, and stamped on the metallic cap covering the cork, observe that our autograph signature is on the

THE AMALGAMATION OF LANGUAGES .- There is THE ANALGAMATION OF LANGUAGES.—There is to growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own thus the word Cephalic, which is from the Greek signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a superscript way, and the word Cephalic will be more general way, and the word Cephalic will be come as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage, until they seem "native and to the manor born."

'ardly Realized.

Hi 'ad 'n 'orrible 'eadache this hafternoon, hand Hi'ad'n'orrible 'eadache this hafternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache?" "Does it hache 'ard," says 'e. "Exceedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'headache.

Headache is the favorite sign by which nature makes known any deviation whatever from natural state of the brain, and viewed in this light it may be looked on as a safeguard, intended to give notice of disease which might otherwise es-cape attention till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common, and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism, and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatidisease constituting bilious headache, of worms constitution and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Head-aches; Anæmia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually dis tinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralgia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which headache is the unerring index.

BRIDGET .- Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,
but I'm thinking that's not just it naither; but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Head iche, and wants some more of that same that re

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is se evalent, so little understood, and so much negprevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and ompanion of many of the most fatal and danger us diseases, and unless early eradicated it wil bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while s long train of frightful diseases such as Malignan long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhæ, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the disease named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should tion whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insiduous approaches of disease and destroy this dangerous foe to human life.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu tions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, St. ANTHONY'S FIRE, Rose, or Erysipelas, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIAindeed, ALL COMPLAINTS ARISING FROM TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costive-

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croun, Bronchitis, Incinient Consumna tion, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so nu-So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to ed cures too numerous and too remarkable to

be forgotten.
